Rhododendron Maximum and Kalmia Latifolia

SARGENT

This latest Silver Medal Rose, originated by Jackson Dawson, is now offered for the first time for Fall, 1912, delivery. This seedling combines the good qualities of R. Wichuriana, R. Crimson Rambler, and R. Baroness Rothschild which have been used in its evolution. The flowers are single, about three inches across, pale rose in color, and produced in greatest profusion in pyramidal clusters all along the strong branches, blooming from the middle of May till the end of June. The foliage is a beautiful glossy green and remains in good condition till late Fall.

As this stock is limited book your orders now.
\$1.50 each.

WM. C. EGAN

This rose was awarded a medal by the Massachusetts Horticultural Society in 1900. It was produced by crossing Gen. Jacqueminot on Rosa Wichuriana, but shows no trace of either in its bloom. The flower is large and very full, resembling in shape as well as color Souvenir de la Malmaison. Although only an annual bloomer, it remains in flower several weeks, and the large trusses of superb blooms are unusually attractive. Mr. Dawson considered this the best of all his numerous hybrids. It is unquestionably hardy and reliable. 5 inch pots, 75 cents each; \$6.00 per ten.

FARQUHAR

This rose was awarded the silver gilt medal of the Massachusetts Horticultural Society, certificated by the Horticultural Society of New York. The Farquhar Rose has glossy, bright green foliage which does not drop, but retains its lustre until cut down by severe frost, a feature which makes it most valuable for covering trellises, pillars, summer-houses and rocks. It is perfectly hardy and bears magnificent clusters of bright pink double flowers on long stems which are most serviceable for vases and table decorations, and bloom several weeks later than the Dawson Rose. Fifty cents each; \$4.00 per ten.

MINNIE DAWSON

This rose was awarded a medal by the Massachusetts Horticultural Society in 1896. It was produced by crossing *Rosa Multiflora* and Dawson. The flower is double white with yellow center and is very delicate. It is a climber and has foliage similar to the Dawson. \$1.00 each; \$9.00 per ten.

LADY DUNCAN

This fine rose was awarded a silver medal by the Massachusetts Horticultural Society in 1900. It is a hybrid of the ever excellent Rugosa and the Memorial Rose (R. Wichuriana). It has the prostrate long rampant growth of the Wichuriana, while the Rugosa blood shows in the luxuriant, dark, glossy foliage, and in the profusion of large, single flowers. The petals of rich glowing pink melt into an exquisite large yellow centre. Lady Duncan is perfectly hardy, even to Canada, is a strong grower, free bloomer, and of long duration of blooming.

The stock is limited. Order now for Spring delivery. Good strong plants which will yield a mass of blossoms in late June of this year. \$1.00 each, \$10 per dozen.

DAYBREAK

This rose was awarded a silver medal by the Massachusetts Horticultural Society in 1899. It is a rose of Wichuriana type crossed with Rambler Dawson. A vigorous grower, profuse bloomer, excellent too for forcing. The flowers are single, in great pyramidal clusters of deep, yellowish pink, somewhat darker than Lady Duncan, the petals of a lighter shade toward the centre. The foliage is bright, glossy green, and the habit trailing, like its parent, Wichuriana. 2 to 3 feet, \$1.00 each; \$9.00 per ten.
